INTRODUCTION OF ABU GAICIA:

Abu Garcia® Baitcaster Reels — Out for the Win Did you know the Abu Garcia® Revo Rocket, at 10.1:1, picks up twice as much line per turn of the reel handle as the fastest models of just a generation ago? Impressive power, extraordinary speed, and complete control characterizes our Low Profile Baitcaster line up. It's the result of decades of forward-thinking design. Now, when we put a fourth generation Baitcaster in the hands of the experts, there's no denying the craftsmanship. It handles jigs, spinner baits, and crankbaits with pinpoint accuracy. No wonder our Low Profile Baitcaster Reels are part of the arsenal on tournament day when there's sure to be thrilling battles. For bass fishing at its best, the reliable Abu Garcia® Baitcaster Reel is for the shrewd angler out for the win. A Baitcaster Reel That Makes Every Cast as Smooth as the First In 2006, the Revo® Low Profile Baitcast Reel took the angling community by storm. Seven years later, our line of Revo® Low Profiles was completely redesigned, and today they lead the Low Profile pack, boasting a lighter, more compact and more powerful design. It's no surprise that Abu Garcia® Low Profile Baitcaster Reels show up on the champion circuit. Hank Cherry, 2020 Bassmaster Classic Champion calls our Low Profile REVO® STX a reliable workhorse for the grind. It's a super smooth, high-quality reel that's a favorite among many. For superior cranking, the Revo® Winch, part of our popular Winch series of rods and reels, keeps the big ones pinned – they are built to perform in tandem with crankbaits and other similar moving style baits. You'll find quality, reliable drag in this reel. It fits comfortably in the hand for all-day use, and it's a favorite for bottom bouncing. And it's no secret that our Revo Toro® Beast™ X Low Profile, is engineered for brute strength. It's cranking power and high line capacity can handle whatever hard-pulling fish comes your way.
